

Luxembourg Country report

Three major topics are under discussion for the moment:

- **Reform medical fees structure** has been delayed until the next government (after 2014 elections)
 - Time billing system
 - Separation medical fees and medical technical expenses
 - Modern hierarchy and denominations (nomenclature)

- **Patient's right law**
 - Right of information
 - Language barriers
 - Cognitive barriers
 - Reversal proof of information
 - Definition good information
 - Adverse effects 1/100, 1/1000, 1/10000 etc.
 - Definition proof information
 - Time
 - Adequate setting
 - Pedagogical means
 - Right to be ignored
 - How to balance this patient right with elemental professional rights?

- **Compensation of medical accidents**
 - **-1** *Foreseeable and avoidable* accidents

- Professional responsibility
 - Obligation professional insurance coverage
 - Scope professional insurance coverage
 - Time out liability and claims
 - Obligation companies to insure professionals
- -2 *Foreseeable and unavoidable* accidents
- Patients information
- -3 *Unforeseeable and unavoidable* accidents
- No fault compensation system

N.B.: In Luxembourg nosocomial infections have been assimilated to security guarantee of result (jurisprudence 2013)
